Cast template sheet

1. Print at 100% (“Actual size”), not “Fit to page”. This bar should measure one inch: ▬▬▬
2. Use a thick black marker, with a line as thick as the gray legs. Note any colors beside the box.
3. Draw the body only, as one closed shape, inside the box. Bring its bottom edge a marker’s width below the hip line, over the tops of both legs, so it stays joined to them as it walks and bows.
4. Face the way the feet point. It walks that way, and bows that way from the small cross.
5. Photograph the sheet flat from straight above, in even light, with all the black squares in the frame. Try one drawing all the way through before drawing the rest.
